

Inlaid Logo Mat

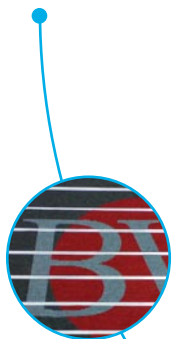

Focus on Individuality

By simply incorporating a logo into your design not only are you creating interest and individuality but most importantly establishing corporate identity and building professional relationships with your customers.

Inlaid logo mats are manufactured using high quality barrier matting, cutting and inlaying one or more colours to provide the required design or logo, which can be incorporated into our other entrance matting products.

Focus on Detail

- Standard or custom mat size availability
- No minimum quantity for corporate designs and colours.

Focus on Creating

Freeform takes entrance barrier matting to the future by creating the opportunity for you to bring a distinctive air of individuality that's unique to you. With Freeform you have the complete freedom to create an entrance specific to your colours, design accent and pattern together with performance.

Since colour and texture is the first thing we register when entering a building or room, it plays an invaluable role in creating the first impressions and attitudes that you or your visitors encounter. A welcoming feeling and corporate branding and identity is what you will want to create - a positive first impression.

Ultimately you know best so trust your instincts and design Freeform.
