

## Focus on Design

The crisp, sleek lines and cool colours of the Entra-Lock complement and enhance any interior scheme, whilst providing a unique and engineered performance to remove large amounts of dirt and moisture.

Entra-Lock tiles are manufactured utilising a recyclable pvc compound with an open web structure with the addition of a polyamide 6.6 high performance carpet insert. With a choice of 9 standard stock colours together with FREEFORM option the carpet insert utilises extra coarse fibres for scraping and fine polyamide fibres enabling superior moisture retention.

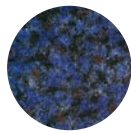

# Entra-Lock™ Focus on Design
