

Premiere - For Matlock, Broadloom & Inlaid Logo Mats

Focus on Confidence

The natural beauty and gentle colour variation of Premiere barrier matting blends with any interior entrance. The attractive surface pattern creates a coarse, textured surface for excellent scraping ability while the fibre construction provides superior moisture absorption.

Premiere is a durable tough needle-punch barrier matting providing outstanding performance in moderate pedestrian environments. Premiere provides the optimum solution for government buildings, schools, offices, retail and leisure facilities.

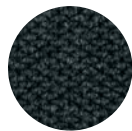

Premiere Focus on Confidence

Focus on Detail
